## **Meridian Technology Center Celebrates National Apprenticeship Day**

Meridian Technology Center proudly recognizes National Apprenticeship Day on April 30, 2025, and celebrates the impact of Registered Apprenticeship programs in building strong career pathways for individuals and a skilled workforce for Oklahoma industries.

These programs connect classroom learning with hands-on experience, providing opportunities for people of all backgrounds to gain valuable skills and contribute to the future of our communities.

We invite our partners and stakeholders to join us in supporting and expanding apprenticeship opportunities across our district.
