

National Apprenticeship Week 2026

BUILDING CAREERS. STRENGTHENING WORKFORCE. EMPOWERING FUTURES.

On behalf of Serrato Corporation, we proudly recognize and celebrate **National Apprenticeship Week**, honoring the vital role that Registered Apprenticeships and work-based learning opportunities play in strengthening our nation's workforce and expanding pathways to economic mobility.

Apprenticeships represent one of the most effective and time-tested models for developing talent—combining structured education with hands-on experience to prepare individuals for high-demand careers. These programs not only equip students with industry-recognized skills, but also foster confidence, discipline, and long-term career success.

At Serrato Corporation, our commitment to workforce development is grounded in the belief that **every student deserves access to meaningful career pathways**. Through our leadership in Job Corps center operations, we are dedicated to integrating apprenticeship readiness, industry partnerships, and career-connected learning into the Career Development Services System (CDSS). We recognize apprenticeships as a critical bridge between training and employment—aligning directly with employer needs and regional labor market demands.

During this National Apprenticeship Week, we:

- **Celebrate our students** who are pursuing career technical training and preparing for apprenticeship and employment opportunities;
- **Recognize our staff and instructors** whose dedication ensures high-quality training aligned with industry standards;
- **Acknowledge our employer and workforce partners** who invest in the next generation through apprenticeship and work-based learning opportunities; and
- **Reaffirm our commitment** to expanding access to apprenticeship pathways across all Serrato-operated Job Corps Centers.

Serrato Corporation remains steadfast in advancing innovative, employer-driven solutions that connect education to employment. Together, we will continue to empower students, strengthen communities, and build a resilient workforce for the future.

CALL TO ACTION

We encourage all partners—educators, employers, workforce organizations, and community leaders—to continue investing in apprenticeship pathways that empower students and build a resilient workforce for the future.

STAY TUNED

Additional activities and engagement opportunities will be shared by the Serrato Corporate Office throughout the week.
