

Youth Apprenticeship Intermediary net.America

Industry

Healthcare, Energy, and Information Technology (IT)

Approved Occupation

Cybersecurity Technician, IT Technician, Electrical (low voltage and high voltage), CNA, CMAA, Patient Care Technician, Pharmacy Technician, CHW, and Patient Navigator.

Target Registered Apprentice Populations

Youth between the ages of 16-21.

Project Overview

net.America is providing equitable access to underserved populations by creating and expanding career pathways in Registered Apprenticeship (RA) programs. Through this endeavor, net.America is serving youth, offering support to employers and stakeholders through assistance, and creating a consortium with the ability to share resources.

Types of Services or Technical Assistance (TA) Provided

- Raise awareness of RAs as a career pathway through broad outreach to Career Technical Education (CTE) programs, high schools, and out of school youth
- Work with targeted businesses and industry partners so they consider and adopt RAs
- Provide TA in the creation of RA standards and the design, development, and operation RAs
- Provide financial support to retain youth apprentices
