_____ Pre-apprenticeship activities only
If applying for the set-aside, please ensure your Project Narrative clearly addressesguidelines described in Section II.A. Award Type and Amount.

Project Title: *Expanding Community College Apprenticeship (ECCA): Electric Vehicle (EV) Hub [ECCA: EV Hub]*
Funding Amount Requested: $8,000,000
Applicants Geographic Scope of Proposed Project: National
Number of apprentices enrolled in RAPs during the life of the grant: 575
Population(s) to be served: Unemployed, underemployed, and incumbent workers including veterans, and underrepresented populations, including women, people of color, and ex-offenders, and other populations with employment barriers that hinder movement into middle- to high-skilled occupations and industries..

Required Partners: (Organization name and entity type)

Organization	Entity Type
Tesla	Employer
Panasonic	Employer
Nevada System for Higher Education	Post-Secondary Education Institution
National Association of Workforce Boards	Workforce Association

Optional Partners: (Organization names and entity type)

Organization	Entity Type
Association for Career and Technical Education	Industry/Education Association

Advance CTE	Industry/Education Association
Feeding America	Wrap-around Service Provider
SHRM Foundation	Employer Association
SNF Writing Solutions	Sustainability SME

Project Purpose: AACC's *ECCA: EV Hub's* purpose is to convene CCs, employers, and workforce development partners as change agents to plan and implement projects that support workforce education and skills training activities, directly connected to the hiring and skills needs of the electric vehicle industry and that result in well-paying quality jobs.

Subrecipient Activities: Employers and community colleges will work together to develop and implement preapprenticeship and RAP programs including RI and OJT. National Network Partners and subject matter experts will provide technical assistance to employers and community colleges to implement the program and meet program outcomes/outputs.

List of Credentials(s) to be awarded: Tesla and Panasonic proprietary credentials.

SUMMARY OF PROGRAM ACTIVITIES: The proposed *ECCA: EV Hub* program will bring together large-scale employers, community colleges, and regional and national workforce partners to create a scalable model for training and credentialing electric vehicle-related occupations. The program will increase access to EV occupations for individuals who are un(der)employed through preapprenticeship and registered apprenticeship programs.
