

## **American Apprenticeship Initiative Grant Award Summaries**

### **Central New Mexico Community College – Albuquerque, NM**

Central New Mexico Community College was awarded a \$2.9 million grant to fund the Information Technology Apprenticeship Program. On-the-job learning and job related technical instruction will be offered to 300 new and incumbent workers in 5 career paths in the Albuquerque metro area. The project will produce the first RACC Registered Apprenticeships in the state and is designed to be scalable statewide through a partnership and infrastructure developed with the DOL TAACCCT-funded SUN PATH consortium of community colleges working in IT and Health.
