

Project Summary

net.America is providing equitable access to underserved populations by creating and expanding career pathways in registered apprenticeships for youth, offering support to employers and stakeholders through technical assistance, and creating a consortia with the ability to share resources. Efforts are primarily targeted to the mid-Atlantic region and focused on healthcare. The youth initiative to create and expand registered apprenticeships in healthcare is known as the "Future Is Health."

Industry Focus & Geographic Location

- Industry: Healthcare and other non-clinical related occupations in healthcare settings
- Locations: Primarily the Mid-Atlantic region (District of Columbia/Maryland/Virginia-DMV, Pennsylvania, and New Jersey), with a growing presence across the United States.

Key Partners

- Kaizen Technologies
- Ashlin Management Group
