Information technology (IT) companies and businesses in sectors with significant IT requirements face complex workforce challenges keeping up with the demands of rapid technological advancements. Registered Apprenticeship is a proven solution for recruiting, training, and retaining world-class technology talent in good, quality jobs. In 2022, there were nearly 5,000 Registered Apprentices in the IT industry, which is a significant increase over the last nine years.¹

**THE NEED FOR REGISTERED APPRENTICESHIP IN INFORMATION TECHNOLOGY**

IT is critical to our country’s infrastructure, security, and economic competitiveness. The challenge? Significant talent shortages are slowing IT employers’ efforts to innovate, expand, and excel. Among these challenges:

- Developing agile, adaptable workers that can keep pace with rapid industry evolution
- Finding and hiring a more diverse workforce
- A lack of workers with advanced specialty skills and credentials
- A need for more rapid and responsive workforce training and “up-skilling” models

These workforce challenges undermine productivity and profitability. The good news? There is a proven solution to meet IT businesses’ talent challenges: Registered Apprenticeship. Registered Apprenticeship is a proven and industry-driven training model that can provide a critical talent pipeline for IT-focused businesses.

**REGISTERED APPRENTICESHIP: THE TOP TALENT DEVELOPMENT SOLUTION FOR EMPLOYERS**

Thousands of IT employers across the U.S. and among our global competitors use the Registered Apprenticeship training model to recruit, train, and retain workers with the right skills. Registered Apprenticeship has been the most effective training model for enhancing companies’ performance and competitiveness.
WHAT IS REGISTERED APPRENTICESHIP?

Registered Apprenticeship is an industry-driven, high-quality career pathway where employers can develop and prepare their future workforce, and individuals can obtain paid work experience, receive progressive wage increases, classroom instruction, and a portable, nationally-recognized credential. Registered Apprenticeships are industry-vetted and approved and validated by the U.S. Department of Labor or a State Apprenticeship Agency.

HOW CAN REGISTERED APPRENTICESHIP HELP COMPANIES?

Organizations that hire IT employees realize a number of benefits from implementing Registered Apprenticeship programs. Through apprenticeship, organizations will:

▶ Vet workers with the right aptitude and attitude to instill the company’s culture
▶ Recruit and develop a diverse and highly skilled workforce
▶ Improve productivity, profitability, and the company’s bottom line
▶ Reduce turnover, improve loyalty, and retain top talent
▶ Demonstrate investment in the community
▶ Gain access to federal, state, and local support for the program through Registered Apprenticeship, workforce, and education systems

Partner with the Office of Apprenticeship, a U.S. Department of Labor Industry Intermediary, or State Apprenticeship Agency to access a nationwide network of expertise, customer service, and support. Our apprenticeship team creates industry solutions and help businesses quickly achieve workforce results.

“The power of Registered Apprenticeship programs is their recognition of potential. Delivering skills through on-the-job training focuses on what is exactly needed for success and allows the apprentice to demonstrate their aptitude. It’s a win for the apprentice and a win for the company. We’re looking forward to seeing the excellence from our next apprenticeship cohort”—Tan Moorthy, Executive Vice President, Infosys

The numbers represent apprentices associated with the NAICS Code 51.
