Project Overview

National Restaurant Association Educational Foundation (NRAEF) and American Hotel and Lodging Foundation (AHLF) represent the two largest sectors in the hospitality industry - restaurants and lodging. Together NRAEF and AHLF sponsor the Hospitality Sector Registered Apprenticeship (HSRA) program, and this alliance underscores the value of Registered Apprenticeship across all segments of the hospitality sector. Developing and validating competency-based career pathways and apprenticeable occupations in the hospitality and food service sector is the basis for this alliance. Over the past few years, HSRA has expanded to include the Multicultural Foodservice and Hospitality Alliance to develop and promote resources, webinars, trainings and materials that enhance the industry's diversity and inclusion efforts.
